

Core Logging Geologist – Short Term – Vizsla Copper

About the Organization

Vizsla Copper is a fast-growing Cu-Au-Mo focused mineral exploration and development company headquartered in Vancouver, Canada. The Company is primarily focused on its Palmer VMS project in Southeast Alaska, and its Poplar and Woodjam porphyry-related projects in Central and Southern British Columbia. Vizsla Copper's vision is to be a responsible copper explorer and developer in the stable mining jurisdictions of Alaska and British Columbia, and is committed to socially responsible exploration and development, working safely, ethically, and with integrity.

About the Opportunity

We are looking to hire a Core Logging Geologist on a contract basis to join our exploration team at the Poplar project near Houston, British Columbia.

In this role, you will support core processing tasks in collaboration with Geotechnicians and Project Managers on site. Responsibilities include, but are not limited to:

- Geological logging and sampling
- Supervising drill activities, including drill setup and shutdown, progress tracking, and ensuring adherence to safety standards
- Occasionally oversee Geotechnicians, ensuring their effective contribution to project objectives
- Participating in daily toolbox safety meetings
- Completing additional tasks as assigned by supervising Project and Senior Geologists

This is a fly-in fly-out position based at a remote exploration camp, operating on a rotational schedule of approximately 15 days on and 13 days off. Camp accommodations and meals are provided while on site. All travel to and from the site is arranged and paid for by Vizsla Copper Corp. To ensure efficient travel logistics we are primarily seeking candidates who reside in western Canada near major transportation centers.

Position Requirements

- Minimum BSc in Geology, Geoscience, or related fields
- 1+ years of experience logging diamond drill core, preferably porphyry-related
- Registered or ability to register with Engineers and Geoscientists of British Columbia (EGBC) as a Member-in-Training (GIT) or Professional Geologist (P.Geo)
- Authorized to work in Canada
- Valid BC Class 5 (or equivalent) driver's license
- Basic First Aid and CPR level C certified (preferred)

Compensation

The position will be compensated at a daily rate ranging from \$450 to \$550 according to experience and based on a 10 hour work day. In accordance with the BC Labour Code, as this position is involved in the collection and processing of geologic samples, overtime rates do not apply.
